PROFESSIONAL SUMMARY

Versatile fresher with a B.Tech in Information Technology and hands-on experience across UI/UX design, Machine Learning, and AI/Prompt Engineering. Skilled in designing user-centered interfaces in Figma, building ML models with Python and Scikit-learn, and crafting effective prompts for ChatGPT, Gemini, Claude, and DALL-E. Experience training students on UI/UX and GenAI tools, with internship exposure in both design and machine learning environments. Adaptable, fast learner, comfortable working across design, technical, and AI-driven workflows.

CORE SKILLS

Design Tools: Figma, Adobe XD, Photoshop, Canva, Illustrator, Sketch

Design Skills: User Research, Wireframing & Prototyping, Interaction Design, Usability Testing, Design Systems

AI / Prompt Engineering: Prompt design for ChatGPT, Google Gemini, Claude, DALL-E; prompt iteration & refinement; AI-assisted content & document workflows

Programming: Python, Java, HTML, CSS, JavaScript, SQL, Streamlit

Machine Learning: Scikit-learn, Data Preprocessing, Model Training & Evaluation

AI & Productivity Tools: ChatGPT, Claude, Google Gemini, DALL-E, Cursor AI, Bolt.new, Lovable, Replit AI, v0.dev

Other: Git, GitHub, Training & Curriculum Delivery

EXPERIENCE

UI/UX Trainer | Brand Monk Academy

April 2026– Present

- Trained students on UI/UX design principles, tools, and workflows; applied prompt engineering and GenAI tools (ChatGPT, Gemini, Claude, DALL-E) to build training content and visual materials.
- Built a corporate training proposal for an "AI for Vibe Coding" program covering Cursor AI, Bolt.new, Lovable, Replit AI, and v0.dev.

Machine Learning Intern | VCodez

Sep 2025 – Dec 2025

- Assisted in developing and optimizing ML models; worked on data preprocessing, model training, and evaluation using Python and Scikit-learn.

UI/UX Designer Intern | BICS Global, Chennai

Jul 2024 – Aug 2024

- Designed wireframes, mockups, and high-fidelity prototypes in Figma; collaborated with developers to refine user flows and ensure accessible design implementation.

PROJECTS

Smart Laundry App — UI/UX Case Study | Self Project (Figma)

- Designed a laundry service app with easy booking, real-time tracking, and seamless scheduling; focused on user flow and visual hierarchy.

PivotPath — AI Career Transition Advisor | Machine Learning Project

- Built an AI-based system recommending career roles and predicting salary outcomes from user skill data, identifying skill gaps and guiding next steps.

EDUCATION

B.Tech, Information Technology — CGPA: 8.5/10 | Anna University, GTJEC, Vellore 2022 – 2025

Diploma, Electronics & Communication Engineering — 92% | Rajagopal Polytechnic College, Gudiyattam
2019 – 2022

CERTIFICATIONS

Python – Besant Technologies | Java Programming – Anudip Foundation | UI/UX Design – Tutedude
